Michigan's Most Spectacular Family Winter Playground Treetops Resort
Boasts Michigan's ONLY Terrain Based Learning Program

*Offering a Shorter Learning Curve, High Level Sensations in a Controlled
Environment and Reduces Fear*

That Means More Time On the Snow!

(Gaylord, MI) August, 2024 – The Treetops Ski School team of instructors is ready to welcome first time skiers to the resort's family-based terrain, with a state-of-the-art ski instruction program called **Terrain Based Learning**. Treetops Resort is proud to be the ONLY Michigan ski and snowboard facility to offer the learning program.

Terrain Based Learning (TBL) is a process for teaching beginner skiers and snowboarders that utilizes purpose-built snow features, assisting the guest in achieving the movements, sensations and body positioning needed to ski and snowboard.

The TBL method features controlling naturally the guest's speed and movement, building confidence in a short period of time.

Terrain Based Learning removes the traditional fears and anxiety from learning to ski and snowboard and puts the focus on the fun. "We are so excited to offer this new way of learning to our guests. Our instructors are exclusively trained by the Snow Operating team who has trademarked the program. We can't wait to see the smiles on the snow as kids and adults alike take their turn in the Terrain Based Learning adventure, allowing them to enjoy the sport sooner with no fear," said Barry Owens, General Manager.
